Lead Software Engineer with 10+ years of experience building highly scalable backend systems across fintech, logistics, and e-commerce.

Currently operating at Staff-level, leading org-wide initiatives in schema governance, automation platforms, authentication systems, and infrastructure engineering.

Passionate about solving scalability and reliability problems, mentoring teams, and driving engineering excellence.

WORK EXPERIENCE

PhonePe • Bangalore, India

Oct 2022 - Present

Lead Software Engineer

- Spearheaded the org-wide development of a Schema Registry service, supporting schema evolution across 50+ microservices and stream processing at 3M rps, improving efficiency by 60% within 9 months.
- **Architected org-wide automation platform** used by 200+ engineers, reducing SRE toil by 80% (~200 hrs/week) and improving infra reliability to 99.9%, for mission-critical DB operations, security upgrades, and infrastructure management.
- Enhanced Authn/Authz system to handle 10K RPS with 99.9% SLA, architected organization-wide cascading authentication and led Java 17 migration with critical features (Maker-Checker)
- Owned end-to-end production deployment with comprehensive observability, built Grafana dashboards and automated alerting for operational excellence
- Mentored engineering teams through knowledge transfer sessions, led cross-functional Engineering/SRE/DevOps initiatives, established CI/CD automation standards and infrastructure-as-code principles

Udaan • Bangalore, India

Jul 2020 - Sep 2022

Sr. Software Engineer

- Increased Udaan-Express daily orders from **1K to 200K** across 1K clients within 6 months by optimizing API integration and bulk order processing.
- Optimized system stability from 99.9% to 99.99% while cost-effectively handling 2K RPS with enhanced performance monitoring
- Implemented Variable Rate-card pricing for Lane-based and Zone-based B2B/B2C clients providing accurate logistics charge calculations
- Enabled cashless COD payments through verified payment link system sent to consignees, improving payment success rates
- Built push-based notification platform using Azure event-hub for real-time order updates to sellers
- Automated DPM incentive system with contract pricing based on KM, KG, TP, FUEL metrics, eliminating manual Field Executive calculations

OYO • Gurgaon, India

Sep 2019 - Jun 2020

Sr. Software Developer

- Designed OYO Money wallet redemption feature with user segment restrictions, increasing customer bookings by 3-5%
- Developed On-Page OTP collection for Paytm-gateway hotel booking payments, improving success rate by 2-3%
- Enhanced payment gateway integration for debit/credit card transactions with improved user experience

Delhivery • Gurgaon, India

Aug 2015 - Jun 2019

Sr. Software Developer

- Led full-stack development of Client Panel enabling 10K clients to manifest, track orders, and generate customized reports
- Implemented multi-user management system with role-based access control for platform services
- Built actionable insights dashboard providing WoW/MoM analytics including ETA/TAT, order volume, revenue, and geographic shipment mapping
- Delivered comprehensive reporting system with scheduled report generation and NDR shipment tracking

Software Developer

- Developed Hyperlocal platform from scratch enabling local retailers on e-commerce with online/offline functionality
- Implemented robust transaction syncing with comprehensive exception handling and offline capability
- Built advanced inventory management with product catalog and detailed transaction reporting for merchants

Jeevomics • Delhi, India

Jan 2015 - Jun 2015

Software Developer Intern

- Front-end development of Experiments and Analysis Tracker Panel for General Metabolics scientists

EDUCATION

B.Tech IT

IIIT, Allahabad • Allahabad, India • GPA: 8.49

Aug 2011 - May 2015

10+2 CBSE

JNV, Shahjahanpur • Shahjahanpur, India • GPA: 90.8%

Apr 2009 - Mar 2010

AWARDS & SCHOLARSHIPS

Merit Incentive Award for academic performance during B.tech

Jun 2012

IIIT, Allahabad

Certificate of Merit in Computer Science for ranking in the top 0.1%.

Jul 2010

CBSE (High Secondary)

CBSE Board Merit Scholarship for outstanding academic achievement

Jul 2010

CBSE (High Secondary)

SKILLS

Aerospike, AWS, AWS Lambda, Azure, C/C++, Cloudflare, CloudWatch, CosmosDB, Debian, Distributed Systems, Docker, Dropwizard, EC2, ECommerce, Flask, Git, GitHub, Grafana, IntelliJ, Java, JavaScript, Java Spring, JIRA, JWT, Kafka, Kotlin, Kubernetes, Microservices, MongoDB, Multi Threading, Node.js, OAuth, Payment Gateways, Python, Redis, RESTful APIs, S3, Shell Scripting, Stream Processing
